Beverage**

**Government  
Institutes**

**Healthcare &  
Hospitals**

**Hospitality &  
Tourism**

**Logistics &  
Supply Chain**

**Manufacturing  
& Warehouse**

# Customer Paging System

SIGNALGRYD >> CUSTOMER PAGING SYSTEM

At its core, SIGNALGRYD wireless customer paging system allows your staff to wirelessly alert customers when necessary. Although most applicable in the F&B industry (for self-service order collection), the system is also able to support other industries such as hospitality & tourism, healthcare, automotive, and many others.

Keep your customers comfortable knowing that they are being attended to. Your customers would be able to roam around the vicinity or simply be seated. Our Customer Paging System helps to enhance staff performance, customer satisfaction and reduce congestion at your store fronts.

The simplistic design and function enables our system to operate strictly through radio frequency. No internet connection, or Wifi connectivity is required.

**EASY SET UP  
PLUG & PLAY  
OPERATION**

**RADIO  
FREQUENCY  
TECHNOLOGY**

**NO INTERNET  
CONNECTION  
REQUIRED**

FEATURED PRODUCT: SERIES PACIFIC

# How It Works

SIGNALGRYD >> HOW IT WORKS

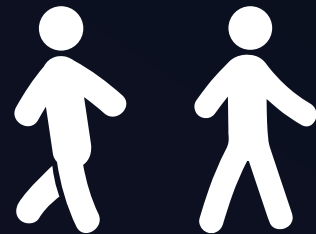

## 01 Place Order

Staff issue customers with the pager when they place their orders at the counter.

## 02 Take A Walk

While waiting for their food to be prepared, customers are free to roam around with the pager.

## 03 Pager Buzzes

The pager will produce discreet beeps, lights & vibrations to notify customers to collect their food.

## 04 Collect Food

Customers can proceed to the counter to collect their food and return the pager to the staff.
