Supply Chain**

**Manufacturing
& Warehouse**

Service Request Paging System

SIGNALGRYD >> SERVICE REQUEST PAGING SYSTEM

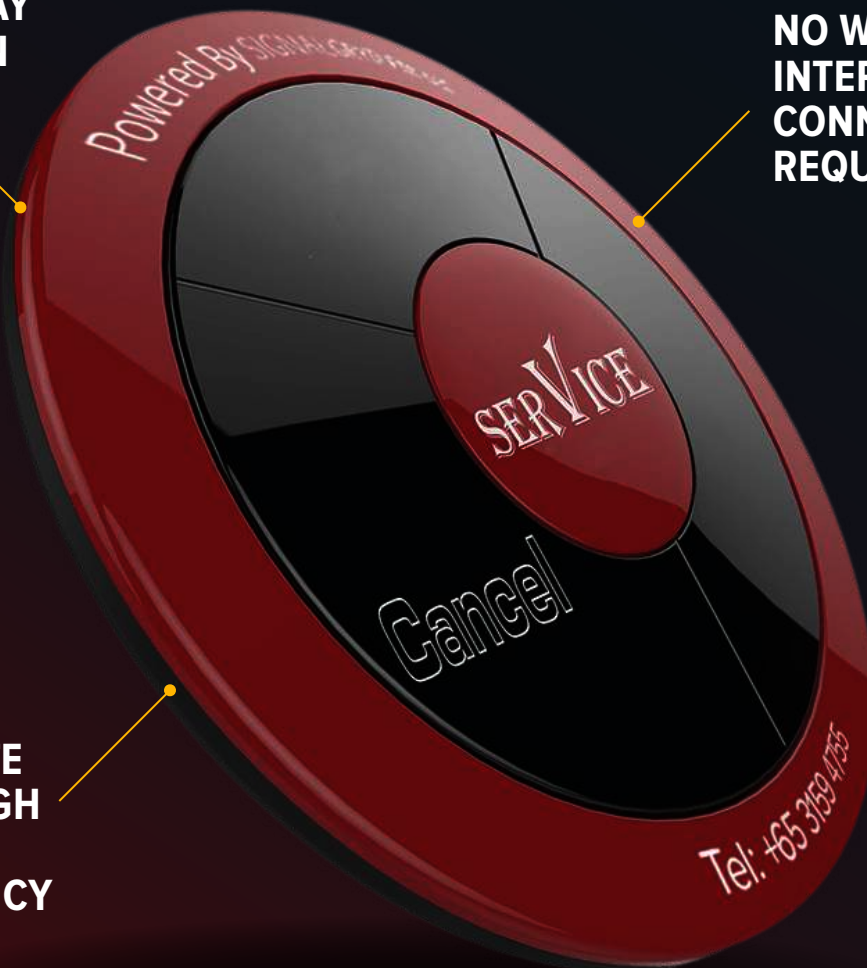

An efficient and convenient paging system that allows customers to request for service directly with the touch of a button. SIGNALGRYD Service Request Paging System allows staff and service personnels to provide faster service to customers as they receive an alert notification through a watch or display receiver.

The simplistic design and function enables our system to operate strictly through radio frequency. No internet connection, or Wifi connectivity is required.

**EASY SET UP
PLUG & PLAY
OPERATION**

**NO WIFI /
INTERNET
CONNECTION
REQUIRED**

**OPERATE
THROUGH
RADIO
FREQUENCY**

How It Works

SIGNALGRYD >> HOW IT WORKS

01 Take A Seat

Customers are taken to their seats or designated spots.

02 Hit The Button

Service Request Buttons installed on the table or fitted to a wall allow customers to hail for service from staff, at a simple push of a button.

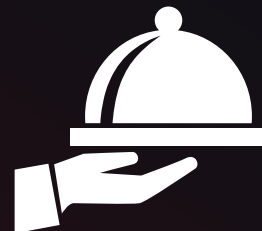

03 Alert Staff

Once the signal has been sent out, the specific location or table number that requires assistance are reflected on the receiving devices.

04 Receive Service

Upon receiving an alert, staff can quickly attend to customers who require assistance.

What We Offer

SIGNALGRYD >> WHAT WE OFFER >> **BASIC BUNDLE** | MOBILE BUNDLE | FULL BUNDLE

Basic Bundle
